Study Abroad with

We are a Member

Programs are available in 39 countries, most of which are immersion where you enroll directly into the host university and take courses with local students and professors. While there are many options if you wish to study in English, many sites do require proficiency in the host language.

ISEP-Exchange allows you to switch places with an international student at another ISEP school; you each pay what you normally pay to your home institution.

If a site is marked E* it has limited exchange space; applications must be received by the deadline and it is encouraged to have an alternate choice.

- = Course Taught in Host Language
- = Course Taught in English
- ▲ = Course Taught in both Host Language and English

ISEP-Direct provides the opportunity to pay a fee to study directly at a host member institution.

Host Area Studies - Courses available to visiting international students about topics such as the culture and history of the country.

Minimum # Lang Semesters - The minimum number of college-level semesters of the host language that you should have taken before studying at this site. If blank, courses are in English or no previous language is needed.
